Quarto Primer

Joe Ornstein

May 16, 2023

Here's a document I created using Quarto!

Quarto

Quarto enables you to weave together content and executable code into a finished document. To learn more about Quarto see https://quarto.org.

Running Code

When you click the **Render** button a document will be generated that includes both content and the output of embedded code. You can embed code like this:

```
[1] 2
```

You can add options to executable code like this

```
[1] 4
```

The `echo: false` option disables the printing of code (only output is displayed).

Including R objects in the text

There are 5 apples in the room.

There are 35 characters in my sentence.

You can also embed figures like so:

Figure 1: 1970s cars weight vs gas mileage
